

I am a VOOM HD Customer, and I am extremely happy with my service. I shopped VOOM, DISH Network, and DirectTV, and selected VOOM in the end, as it had the most robust technology and met my needs and wants as a consumer. Echostar's recent application to have the FCC assign Rainbow DBS's FCC Licenses and Authorizations to Echostar is not in the best interest's of the free market. Thank You for accepting my comments.
